AVAILABLE FROM YOUR EXPERT JANOME RETAILER

SUPERIOR NEEDLE THREADER 2

Threading is simple and efficient! Just follow the easy-to-use threading guide, lower the lever on the left side of the machine, release it gently—and you're ready to sew! This smart feature threads the needle with precision every time, so you can start stitching sooner.

COMPACT DESIGN

Janome's innovative swing-out embroidery arm has a compact footprint, plus free arm capability makes it easy to embroider sleeves, socks, and other small items. Despite its small size – smaller than an A3 sheet of paper, it still provides a generous workspace with 180mm to the right of the needle.

EASY HOOP ADJUSTMENT

The easy hoop tightening system ensures effortless fabric placement, with three convenient lever positions—open, mid, and closed for simple adjustments. For added precision, use the hoop tightening screw to fine-tune the hoop's tightness.
